

SUBSTITUTE SELECTION CRITERIA

Criteria for selecting the applicants to be considered are determined by:

- How many subs are needed to replace individual resignations
- What teaching license is needed to provide a variety across the curriculum
- Completion of State of Ohio teacher education program with valid license
- Ability to consistently sub in Westerville
- Proximity to Westerville

Individual applications to sub in Westerville remain in our data base throughout the year unless we are notified to remove the request from consideration. As the license need or total number of subs changes throughout the year, applications are reviewed for replacement and applicants are notified to inquire if they are still interested in being processed for substitute teaching.

We appreciate your interest in Westerville City Schools. Should your status or information change, you are encouraged to update your application. If you previously did not meet one or more of the criteria above, the update may change your selection priority.
