

Westerville Partners for Education and Westerville City Schools present...

# Technology in Our Classrooms

Join us for March's event: **Technology in Our Classrooms**. Our teachers and administrators will share in a short presentation about what, how and why technology is being used to enhance student learning. Learn about the **broad research approach** applied to our schools' decision-making as the **roadmap** and **curriculum** are developed.

Then, in an **interactive experiential** setting, find out what **students** are experiencing at all levels. Teachers and students will **demonstrate** and **answer** all your **questions**.

Location: Pointview Elementary, 720 Pointview Dr., Westerville

Date: **Monday, March 19, 2018**

Time: 7-8:30 p.m.

## Tomorrow's Learning Today:

Westerville Partners for Education and Westerville City Schools are bringing together community leaders, outside experts and school representatives to facilitate an ongoing conversation about what WCS is doing to:

- Understand the needs of tomorrow's workforce by working with businesses and our community.
- Fully prepare students for tomorrow's world of work.

Our goals:

- Build common understanding about today's learning and workforce realities.
- Explore how we can work together for everyone's success.
